Objective

Recent Computer Science graduate with foundational knowledge in Python development, seeking an entry-level position to apply programming skills and contribute to software development projects.

Education Bachelor of Science in Computer Science

New York University, New York, NY

Graduated: May 2024

□ Relevant Coursework: Data Structures, Algorithms, Web Development, Database Systems

Skills

- **Programming Languages:** Python, HTML, CSS
- **Frameworks/Libraries:** Django (basic), Flask (basic)
- **Databases:** SQLite, PostgreSQL (basic)
- **Tools:** Git, GitHub, VS Code
- **Other:** Problem-solving, teamwork, communication

Projects Personal Portfolio Website

- Developed a responsive website using Python Flask to showcase projects.
- Implemented user authentication and CRUD operations for project entries.

Simple To-Do App

- Created a command-line to-do application in Python.
- Utilized file handling for data persistence.

Experience Internship - Software Development Intern

TechCorp, New York, NY June

2023 – August 2023

- Assisted in developing backend services using Python.
- Collaborated with senior developers to debug and improve existing codebases. □ Participated in code reviews and team meetings.

Certifications

- Python for Everybody Specialization – Coursera
- Introduction to Python Programming – edX

James Harrison

45 Maple St | Denver, CO, 80203 james.harrison@example.com | (303) 555-7890 | [linkedin.com/in/jamesharrison-ruby](https://www.linkedin.com/in/jamesharrison-ruby)

Professional Summary

Ruby Developer with over 3 years of experience in building scalable web applications using Ruby on Rails. Proficient in RESTful API development, database management, and working in Agile teams to deliver user-centric solutions.

Technical Skills

- **Languages:** Ruby, JavaScript, SQL
- **Frameworks/Libraries:** Ruby on Rails, Sinatra, jQuery, Bootstrap
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Git, Docker, Jenkins, Heroku
- **Cloud Platforms:** AWS, Heroku
- **Other:** REST APIs, Microservices, MVC Architecture, Agile/Scrum

Professional Experience**Ruby Developer**

Cloud Innovators, Denver, CO
July 2020 – Present

- Developed new features and maintained a Ruby on Rails-based SaaS platform for small businesses.
- Refactored legacy code, improving application performance and scalability by 30%.
- Designed and implemented REST APIs for third-party integrations, reducing data access time by 20%.
- Worked closely with front-end developers to deliver user-friendly interfaces.

Junior Ruby Developer

Bright Solutions, Denver, CO
May 2018 – June 2020

- Implemented back-end logic for e-commerce applications using Ruby on Rails.
- Integrated payment gateways and optimized search functionality, enhancing user experience.

Projects

SaaS Platform for Small Businesses

- Developed a scalable SaaS platform using Ruby on Rails, offering tools for customer management and billing.

Event Management System

- Built a web application for event organizers to manage registrations and ticketing using Ruby on Rails and PostgreSQL.
