## Objective

Recent Computer Science graduate with a solid foundation in Java programming. Eager to start a career as a software developer and apply object-oriented programming principles and problem-solving skills to real-world projects.

## Education

### Bachelor of Science in Computer Science

University of Texas, Austin, TX

Graduated: May 2024

- Relevant Coursework: Object-Oriented Programming, Data Structures, Algorithms, Operating Systems, Database Management

## Skills

- **Languages:** Java, SQL, HTML/CSS
- **Frameworks/Libraries:** Spring (basic), Hibernate (basic)
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, IntelliJ IDEA, Maven
- **Other:** Problem-solving, Debugging, Team collaboration

## Projects

### Online Library System

- Developed a Java-based library management system using Swing for the GUI.
- Implemented user login and book management features using JDBC and MySQL.

### Inventory Management System

- Built an inventory management system for a local shop using Java and MySQL.
- Designed a simple CLI application for inventory tracking and reporting.

## Experience

### Software Development Intern

TechCorp, Austin, TX

June 2023 – August 2023

- Assisted in developing REST APIs using Spring Boot.

- Debugged and improved existing Java applications by fixing bugs and optimizing code.
- Worked with a team to design and implement small features for internal tools.

## **Certifications**

- Java Programming and Software Engineering Fundamentals – Coursera
